ETools Enhancement

New Enhancement

1. Added support of CCS controller in the tool.

2. The 'Gen to Gen Paralleling' screen modified.

   (i) Parameter name 'Load Share Ramp Unload Time' is changed to 'kW Load Share Ramp Unload Time' for both PCC3300V1 and PCC3300V2 controllers.

   (ii) Users will be able to see parameter 'kVAR Load Share Ramp Unload Time' for PCC3300V2 controller.

3. Users will not be able to install the tool on Windows 8 and 8.1 Operating Systems.

4. Users will be able to see 'Application type' interlock notes for PCC3300V1 & V2 on 'Paralleling Setup Screen' settings and before calibration initialization.
